PRESS INFORMATION

EMS-GRIVORY receives "Global Supplier Recognition" Award from the NORMA Group

The NORMA Group, a leading international supplier of high-tech connection technology, presented the "Global Supplier Recognition Award" to selected suppliers for the first time. In 2014 this award was presented to EMS-GRIVORY for excellent performance and results.

The "Global Supplier Recognition Award" was presented to Magdalena Martullo, CEO of the EMS-CHEMIE Holding AG and Christian Morf, Vice President Sales & Marketing EMS-GRIVORY by John Stephenson, COO of the NORMA Group, during a celebratory event held at Oestrich-Winkel (Germany) on July 2, 2014. "EMS earned this award as our most reliable supplier in 2013", stated John Stephenson. "Only together with this kind of partner can we maintain our first-class quality standards and achieve our target of maximum customer satisfaction. This is why this year for this first time, we will nominate our top suppliers and honour their excellent work performance", he continued.

Evaluation criteria

With the "Global Supplier Recognition Award", the NORMA Group recognises the supplier performance of EMS during 2013. The NORMA Group evaluated supplier reliability, product quality, competitiveness, conformity with international quality standards and sustainable use of resources with a comprehensive criteria catalogue.

Successful cooperation

EMS has supplied speciality products such as Grilamid LV, Grivory HT and Grilon TS to the NORMA Group since the 1990s. These materials are used by the Norma Group at production locations worldwide for the manufacture of fluid systems and connector elements.
