INVENTA-FISCHER successful in Russia

The company Europlast, Moscow, Russia, a leading producer of preforms, will build an industrial plant to produce polyester bottle grade chips with an annual capacity of 180'000 tons in Solnechnogorsk in the Moscow area. Total project value is estimated at CHF 122 Mio.

The engineering company INVENTA-FISCHER – a member of the EMS Group – has been awarded the contract for the 1st phase of the polycondensation plant. INVENTA-FISCHER undertakes the design work, furnishes the technology and delivers the equipment. Additionally, INVENTA-FISCHER will delegate its specialists for the supervision of the erection and commissioning of the plant. Start of production is scheduled for the end of 2005.
