

Herrliberg, June 29, 2021

## MEDIA INFORMATION

---

### **The Annual General Meeting of the EMS-CHEMIE HOLDING AG will take place as planned on August 7, 2021 at the production site Domat/Ems (GR).**

The Annual General Meeting of the EMS-CHEMIE HOLDING AG, which traditionally takes place with more than 2,000 participants in a marquee at the production site in Domat/Ems, will be held again this year at the site and in the usual way.

According to the decision of the Federal Swiss Council on June 23, 2021, a Covid certificate (vaccinated, recovered or tested) will however, be necessary. For this reason, the possibility for a simple test will be offered before entry.

This year again, along with the statutory part, an attractive accompanying programme and lunch for the shareholders and guests is planned. EMS employees will present innovations using EMS polymers and the well-known "Appenzeller Echo", together with the "Frick Brothers Alphorn Duet" will provide musical entertainment.
